

Region 4 TSE Minutes
September 7 2016 @ 14:00 at Minidoka Memorial Hospital

In attendance: Brandy Bartholomew, Erinn Neilson, Mark Phillips, James Seivers, Larry Troxell, Christie Stevens.

On phone line: Stephanie Shawver, Shelly McFarland, Almita Nunnalee, Jeff Carl, Vicky (State TSE), Christian Surgeon

Brandy opened meeting @ 1410, Minutes from last meeting approved. First and seconded by Mark Phillips and Christie Stevens.

Erin has concerns regarding the designation requirements. Are there national standards, is there a standard extraction form, and what are the national benchmarks to compare to? Stephanie states there are criteria already set or that was followed during the Pilot TSE Participation and we were going to see if we could get that data from Christian. She feels the process is cumbersome and would like more guidance.

A “TO DO” list was generated and will be discussed at the next meeting/next month.

TO DO: Follow up on patients are showing road blocks
Standard extraction forms for data
Data Points
What are the other regions doing to get this information?
Kraal: EKG follow up with contact information, James Pennington for EKG transmission from the Zoll, State Updates, and Jay’s question surrounding TXA for GI/Intracranial Hemorrhage.
Christian: Data Points, Directions to help agencies with designation, extraction paperwork, Pilot data points, Confidentiality paperwork-who keeps them?
Lara: Frequencies
Brandy: Cheryl Hansen for Erin and Mark & add Jon Kepler to the Gooding invite list for TSE Meetings.

Mark discussed communications. Wants to look at regional capabilities and come up with the list of those capabilities and frequencies.

Since not all dispatching agencies are EMD, there was discussion of inviting dispatchers to the meetings to help close the loop on communication.

At 1443 we went into closed session motioned by Brandy & Larry, the paperwork was signed, and those on the line stated they would be listening in and would keep the information shared confidential. In closed session two cases were reviewed: CVA & Shortness of Breath/Chest Pain

Meeting Schedule:

2016	November	Gooding	LFN
2016	December	*Call In*	
2017	January	Cassia	ASL
2017	February	Gooding	LFN
2017	March	Wood River	ASL
2017	April	Minidoka	LFN
2017	May	Twin Falls	ASL
2017	June	*Call In"	
2017	July	Wood River	LFN
